Frontend Developer specializing in React, TypeScript and Next.js, with experience developing and deploying full-stack web applications and AI integrations. Software Engineering student at 42 Luanda with a foundation in C/C++ and systems programming. Focused on product, accessibility, performance and security.

Technical Skills

Frontend Development

- React
- Next.js
- TypeScript
- JavaScript
- HTML5
- CSS3
- Tailwind CSS

Backend & Data

- Node.js
- Express
- REST APIs
- Supabase
- PostgreSQL

Tools & Infrastructure

- Git
- GitHub
- Linux/Unix
- Vercel
- CI/CD

Programming

- C
- C++

Languages

English
B1 (Intermediate)

Portuguese
Native

Education

42 Luanda

Software Engineering
Luanda, Angola · Jan 2025 – Present

- C/C++ programming, algorithms, data structures and object-oriented programming.
- Memory management, systems programming and Unix/Linux environments.
- Git and collaborative software development.

Experience

Independent Software Developer

Jan 2023 – Present · Luanda, Angola

- Develop and deploy full-stack web applications using React, Next.js, TypeScript, Node.js, Supabase and PostgreSQL.
- Implement authentication, role-based access control, Row Level Security (RLS) policies, and integrations with REST APIs and AI services.
- Design responsive interfaces and user workflows focused on usability, accessibility, performance and maintainability.
- Manage development and deployment workflows with Git, GitHub and Vercel.

Projects

RepoLens.AI

React 19 · Vite · Express 5 · GitHub API · Gemini · OpenRouter · Vercel

- Application that analyzes public GitHub repositories and presents architecture summaries, stack assessments, strengths and AI-generated improvement suggestions.
- Express backend with GitHub API, Gemini and OpenRouter fallback; React interface with interactive SVG visualizations.

J Pro Studio

React · TypeScript · Supabase · PostgreSQL · Vercel

- Event management solution with RLS policies, asynchronous transactional email workflows and bulk guest imports through CSV files.

DevTasks

React · TypeScript · Vite · Zustand · dnd-kit · Markdown

- Task manager with List and Kanban views, drag-and-drop, keyboard shortcuts, Command Palette, GitHub Issues import and local persistence with Zustand.
